iControl Networks Partners with C24 Interactive to Bring Interactive Home Management Solutions to DSC Security Systems Dealer and Partner Network

Palo Alto, Calif. (April 6, 2011) – [iControl Networks](#), a leader in broadband home management, today announced its partnership with C24 Interactive, a brand within [Connect24](#), which is under the [Tyco Security Products](#) Brand Portfolio. iControl will power an integrated solution that will enable the [DSC](#) Dealer and Central Station Monitoring partners to offer customers interactive home security and management features.

“We are very excited to have C24 join the iControl Partner Program. It allows us to bring the iControl OpenHome™ Software Platform to a large network of home security providers across the U.S., Canada and abroad, and allows C24 Interactive to offer its dealer and partner network the next generation of home management services that consumers are demanding,” said Paul Dawes, co-CEO of iControl Networks.

The iControl OpenHome Software Platform enables home security companies, broadband service providers and utilities to offer interactive services to their customers allowing them to control and connect to their homes—including security and energy systems, interactive video, remote lighting, thermostat and door lock control , and more—via the web, iPhone/iPad/iPod Touch, Android and other mobile devices.

“C24 Interactive and iControl will provide a next generation home management and security solution that offers the kind of connectivity DSC customers want today,” said Chuck Hutzler, Vice-President, Product Management for Tyco Security Products.

About iControl Networks
