

iControl Networks' OpenHome™ Software Platform Available Now Nationwide Through ADT Pulse

Palo Alto, Calif. (March 11, 2011) —iControl Networks today announced the nationwide availability of its OpenHome™ broadband home management software platform as part of ADT's recently-launched ADT Pulse Interactive Solution. Powered by iControl, ADT's innovative solution allows customers to arm and disarm their security systems, remotely manage their home and receive event notifications via the web, mobile phones and an iPhone app.

"ADT's vision to deliver a more robust, feature-rich interactive solution is moving the industry beyond security to meet the needs of today's busy consumer," said Paul Dawes, co-chief executive officer of iControl Networks. "We are excited to be a part of ADT's game-changing initiative."

With ADT Pulse, customers can also view live video and event-driven video clips and pictures, remotely control lights and thermostats, receive email or text message alerts, and more. The solution also includes an interactive, easy-to-use touch screen that enables simple arming and disarming, lighting and thermostat control, live video viewing from in-home cameras, and provides quick-read information such as weather, traffic reports and news.

"Market response to ADT Pulse is very strong," said Don Boerema, chief marketing officer for ADT. "Customers are very pleased with the peace-of-mind protection ADT Pulse provides them, coupled with the lifestyle enhancements they receive which are saving time and money."

About the iControl OpenHome™ Software Platform

The iControl OpenHome™ broadband home management software platform is offered to top-tier home security companies, broadband service providers and utilities, enabling them to offer interactive home security, remote home monitoring, home control and energy management services to their customers.

About ADT

ADT Residential / Small Business is a \$2.6 billion unit of Tyco International and the number one electronic security company in North America with over 6.3 million customers being serviced by 15,700 employees at 350 locations. With headquarters in Boca Raton, Fla., the business's newest offering is ADT Pulse, an interactive solution for managing home energy, lights and other systems.
