iControl Networks Powers Time Warner Cable's IntelligentHome

Home Management System Offers Ultimate Connectivity for Home Security and Comfort Control

Redwood City, Calif. (January 9, 2012) - [iControl Networks](#), a leader in broadband home management, today announced that its OpenHome™ software platform is powering the [Time Warner Cable IntelligentHome](#) solution. IntelligentHome is Time Warner Cable's new home management system that provides next-generation home security, comfort, control, automation and energy management. With IntelligentHome, customers can:

- **Easily manage security and comfort** from an in-home touch screen, secure website or free mobile app
- **Customize their systems** by creating personalized settings that can generate email and text alerts when requested
- **Know their homes are protected 24/7** with cellular and battery back-up and TWC's owned and operated 5-Diamond rated Emergency Response Center
- **Keep in touch with their homes** using in-home cameras that let them see what's happening when they are away
- **Instantly access everyday apps** like weather, news and photos using their touchscreen
- **Go green** with energy-saving thermostat and lighting controls

And with wireless security and lifestyle peripherals – including door/window sensors, motion detectors, smoke detectors, cameras, thermostats and more – installation is quick and easy.

Executives from both companies are excited about IntelligentHome and what it offers to consumers.

- “IntelligentHome is the latest innovation from Time Warner Cable that brings ultimate control to our customers who want to stay connected to their homes 24/7,” said Keith Burkley, Senior Vice President, Home Management. “IntelligentHome is a powerful smart home management product that's a natural extension of our existing suite of services. Our customers are excited to see just how easy it is to manage their homes from anywhere at anytime.”
- “We are excited to partner with Time Warner Cable to meet the growing demand from consumers to stay connected to their homes,” said Bob Hagerty, CEO of iControl. “IntelligentHome customers will quickly realize how simple it is to manage their homes,

save money on their utility bills and have the peace-of-mind that comes along with a home management service like this.”
